

Creative Director: Gillian Fink

Designer: Gabi Restrepo

- Responsiveness –make sure nav bar is always visible on home page
- Body text can be bigger
  - Also increase line height
- Sources in light grey so it's less distracting
- Nav bar sticking out? For some reason horizontal scrolling is happening
- Subtitles – all caps but make smaller
- Check stretching/distortion on some of the photos
- About section – delete “about” subtitle and the first sentence of the paragraph that follows. Itll then just be two paragraphs under “mission statement”
- Tap logo a little bit smaller
